**OFFICE OF PETITIONS**

In re Application of :  
Peter Terness, et al. :  
Application No. 10/524,168 :  
Filed: September 30, 2005 :  
Attorney Docket No. 3025-1-001 :  
ON PETITION

This is in response to the communication, filed November 27, 2009, to revive the above-identified application, which is being treated as a petition under 37 CFR 1.181 (no fee) requesting withdrawal of the holding of abandonment in the above-identified application..

The petition is **DISMISSED**.

On August 6, 2009, the Office mailed a Notice of Allowance and Issue Fee(s) Due, which set a three month period to reply. The application became abandoned on November 7, 2009, for failure to submit a timely response to the Notice of Allowance. On November 19, 2009, the Office mailed a Notice of Abandonment.

In the present petition, petitioner requests that the Office withdraw the holding of abandonment because the reply was previously filed October 20, 2009.

The petition filed November 27, 2009 cannot be granted because the petition is not signed by all inventors. The petition is not acceptable. In this regard, petitioner's attention is directed to 37 CFR 1.33(b), which states.

- (b) Amendments and other papers. Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:
- (1) A registered patent attorney or patent agent of record appointed in compliance with § 1.32(b);
  - (2) A registered patent attorney or patent agent not of record who acts in a representative capacity under the provisions of § 1.34;
  - (3) An assignee as provided for under § 3.71(b) of this chapter; or
  - (4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

An unsigned amendment (or other paper) or one not properly signed by a person having authority to prosecute the application is not entered. This applies, for instance, where the amendment (or other paper) is signed by only one of two applicants and the one signing has not been given a power of attorney by the other applicant.

Therefore, as the petition is not signed by all the inventors and the record herein fails to disclose that petitioner herein (Zorica Becker-Kojic) was ever given a power of attorney to act on behalf of inventor Peter Terness, or that he is an assignee of the entire interest and has complied with the provisions of 37 CFR 3.73(b), the petition is considered to be improper.

### **DISCUSSION OF PETITION TO WITHDRAW THE HOLDING OF ABANDONMENT**

A review of the record shows no indication that the reply to the Notice of Allowance was received October 20, 2009.

The file record does not include the originally submitted papers. Failure to receive correspondence which includes a certificate of mailing or certificate of facsimile transmission is addressed in 37 CFR 1.8(b), reproduced below:

In the event that correspondence is considered timely filed by being mailed or transmitted in accordance with paragraph (a) of this section, but not received in the U.S. Patent and Trademark Office after a reasonable amount of time has elapsed from the time of mailing or transmitting of the correspondence, or after the application is held to be abandoned, or after the proceeding is dismissed, terminated, or decided with prejudice, the correspondence will be considered timely if the party who forwarded such correspondence:

(1) Informs the Office of the previous mailing or transmission of the correspondence promptly after becoming aware that the Office has no evidence of receipt of the correspondence;

(2) Supplies an additional copy of the previously mailed or transmitted correspondence and certificate; and

(3) Includes a statement which attests on a personal knowledge basis or to the satisfaction of the Director to the previous timely mailing or transmission. If the correspondence was sent by facsimile transmission, a copy of the sending unit's report confirming transmission may be used to support this statement.

In the present petition, while petitioner did supply the Office with a copy of a transmittal letter however, petitioner did not provide an English translation, nor did the transmittal letter contain any status identifiers to properly match the document with the proper application. Further, petitioner did not provide enough documentary evidence, to grant the petition at this time. The petition to withdraw the holding of abandonment is dismissed.

**ALTERNATIVE VENUE**

Petitioner is strongly encouraged to consider filing a petition under 37 CFR 1.137(b) to revive an unintentionally abandoned application instead of filing a renewed petition under 37 CFR 1.181 or a petition under 37 CFR 1.137(a).

A grantable petition pursuant to 37 CFR 1.137(b) must be accompanied by:

- (1) The reply required to the outstanding Office action or notice, unless previously filed. In nonprovisional utility application abandoned for failure to respond to a non-final Office action, the required reply may be met by filing either (A) an argument or amendment under 37 CFR 1.111 or (B) a continuing application under 37 CFR 1.53(b).
- (2) The petition fee as set forth in 37 CFR 1.17(m), **\$810.00 for a small entity**;
- (3) A statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

A form for filing a petition to revive an unintentionally abandoned application accompanies this decision for petitioner's convenience. If petitioner desires to file a petition under 37 CFR 1.137(b) instead of filing a request for reconsideration, petitioner must complete the enclosed petition form (PTO/SB/64) and pay the \$810.00 petition fee.

Petitioner may wish to consider hiring a registered patent attorney or agent to assist in the prosecution of this application. Additionally, petitioner is encouraged to contact the Inventors Assistance Center (IAC) by telephone at 800-786-9199 or 571-272-1000, Monday through Friday from 8:30 AM to 5:30 PM (EST). The IAC provides patent information and services to the public and is staffed by former Supervisory Patent Examiners and experienced Primary Examiners who answer general questions concerning patent examining policy and procedure.

It is also noted that petitioner filed a power of attorney filed August 12, 2009 that was accepted in error. The statement under 37 CFR 3.73(b) was filed in the wrong application.

In order to request or take action in a patent matter, the assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, a Statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number). The power of attorney filed on August 12, 2009 and November 27, 2009 does not include a proper statement under 37 CFR 3.73(b) with a proper reel and frame number. Petitioner should also note that the change of address filed November 27, 2009 was not signed by all inventors.

Any request for reconsideration of this decision should be submitted within **TWO (2) MONTHS** from the mail date of this decision and be entitled "Renewed Petition to Withdraw the Holding of Abandonment under 37 CFR 1.181." See 37 CFR 1.181(f).

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
